

Better Guest Experience

When you hand waiting guests a sleek GuestCall IQ pager, you're putting them in control. Customers are free to wander nearby, or sit at the bar and relax, without worrying they'll lose their table or be notified as soon as their meal is ready. And with GuestCall IQ's built-in table management features, you can estimate table waits more accurately, and turn tables faster. It's a smarter system, for more satisfied customers and a more efficient operation.

QUALITY, DURABILITY & MORE

All pagers are not created equal. GuestCall IQ sets a new digital standard for pager quality and ergonomics. High quality components and ultra rugged design mean fewer dropped pages and durability that stands the test of time. GuestCall IQ pagers automatically alert guests who go out of range with optional voice and vibrate options, reducing loss and helping you to manage costs.

System Highlights

- ✓ **Automatic Pager Programming**
Pagers are automatically renumbered and reprogrammed with the touch of a button.
- ✓ **Ultra-Visible LED**
Easy to see and read in low light environments. No more stickers or duplicate pager numbers.
- ✓ **Multiple Alerts**
Voice or beep, vibrate and LED alerts automatically Notify customers when they have gone out of range, their table or meal is ready.
- ✓ **User-Replaceable Batteries**
Battery replacement is easy and convenient, keeping the cost of ownership down.
- ✓ **Smart Charging**
Dramatically extends the life of the pager batteries without overcharging them.
- ✓ **Unique System ID**
Prevents neighbouring paging systems from interfering with communications in your restaurant.
- ✓ **Integrated Table Management**
Lets host station know the status of tables at a glance.
