

PushToCall

Push Button Paging

Improve Service & Customer Experience

PushToCall Paging System empowers your guest to manager their restaurant experience. After seating, the server shows the customer how to control their experience by pushing the appropriate button on the transmitter to:

- ☺ **Call for service.**
- ☺ **Ask for the bill**
- ☺ **Request a manager to visit the table**
- ☺ **Or customise to suit your venue**

Guests feel confident that their needs will be met with PushToCall Paging. You will be confident that you are providing excellent customer service resulting in quicker table-turns and happy customers, both leading to increased sales.

PushToCall Highlights

- ✓ **Increase Check Average**
- ✓ **Improve Customers Experience**
- ✓ **Increase Table Turns**
- ✓ **Simple Self-Installation**
No electricity is required at the table. No WiFi is used.
- ✓ **Easy to Use**
Simply sync the PushToCall transmitter to the server and manager pagers to assign tables. A quick, 2-step process allows you to reassign tables on the fly.
- ✓ **Completely Wireless**
No messy wires or electrical cords needed on your tables.
- ✓ **Rechargeable**
PushToCall Paging transmitters are rechargeable.
- ✓ **No Software Required**
Other table paging systems require expensive and complicated software licenses. PushToCall Paging System is all you need!
- ✓ **Small Footprint**
PushToCall Paging transmitters stack neatly.
