

ServerCall keeps your waiters working at peak performance for exceptional customer service.

Deliver Food Hot From The Source

Hot Food Hot-Guaranteed

Deliver the best guest experience possible with the ServerCall paging system. ServerCall keeps chefs and managers in constant communication and working more efficiently. Servers are instantly notified when the food is ready for pickup while it is still hot and fresh.

ServerCall helps you win customers and manage your staff more effectively and profitably. With ServerCall, wait staff can spend more quality time with guests, selling more and keeping customers satisfied. Servers handle tables more productively, reducing labour costs. Whether your venue is large or small, ServerCall comes with a variety of transmitter and pager choices that fit your budget.

ServerCall Highlights

- ✓ **Auto Recall Feature**
Automatically pages the server up to three times when food is ready to pickup. If the third page is unanswered, the manager is paged to provide further assistance.
- ✓ **All Page Feature**
Allows managers to quickly send a message to the entire staff, such as announcing a "shift meeting" or that an item is no longer available.
- ✓ **Most Reliable Pagers**
Made to withstand the harsh restaurant environment.
- ✓ **Managers Button**
Instantly calls the manager to the kitchen to provide additional assistance when necessary.
- ✓ **Multiple Pagers & Transmitter Choices**
Mix and match pagers for the best solution to fit your budget and operation.
- ✓ **Unique System ID**
The system id is unique to your site, preventing possible cross calling from neighbouring paging systems.
- ✓ **Flexible Integration**
ServerCall can integrate with other UniPage Wireless paging solutions to achieve even greater restaurant efficiency
