

ClubPage

Customer Service Solution For Your Gaming Patrons

ClubPage enhances customer service in your venue by providing your staff with up to date information as soon as one of your patrons requires service at their poker machine. The staff pager displays the service type and the machine number they are required at.

- ✓ ClubPage is a 'poker machine' paging and report generation software package for Windows based PC's.
- ✓ Instant Messaging from the Pokies to staff members.
- ✓ Dynamic paging from any LAN connected PC's to any pager.
- ✓ Full analysis of service responses via standard data files (drinks, service, payouts etc).
- ✓ Overhead sign integration for patrons and roving staff viewing.
- ✓ Radio buttons and local wired inputs monitored and reported via UniPage encoder.
- ✓ Developed and supported in Australia.
