

## **On-Site Radio Paging System With IGIM Module**

The V2 On-Site paging system integrates with the loyalty/gaming system. When manual call buttons are pressed or if automatic messages are triggered they are sent directly to the LX4+ staff pagers.

**Improves the service level in your gaming room and helps increase poker machine turn over.**

### **KEY FEATURES:**

- ✓ Manual Service/Attendant Calls (e.g. EGM 004 attendant required)
- ✓ Automatic calls e.g. Hopper Empty, Payout with \$ amount and 'hot player' messages
- ✓ **NO PC/Computer required for any of the above features**
- ✓ Reliable LX4+ staff pager
- ✓ Minimal setup costs. Pre-configured by UniPage and self-installed by venue
- ✓ No yearly service fee. Phone/Email support included

## **Integrated Poker Machine Paging Work Flow**

Customer pushes  
attendant/service  
button on EGM

Loyalty System

UniPage V2  
On-Site Paging System

***“A UniPage V2 On-Site  
paging system is a  
cost effective way of  
improving the customer  
experience in your  
gaming room”***

Staff pager instantly  
receives message eg.  
Attendant Machine 30

Gaming Attendant arrives  
at machine quickly to  
serve customer
