

Reduce EGM Downtime & Improve service levels

The UniPage PTX Call Point is a wireless battery powered service button. The PTX Call Point has been specifically designed for use on poker machines.

The PTX Call Point can be discreetly mounted on your poker machine and enables customers to contact staff at the touch of a button.

With a UniPage PTX call point system staff can attend to customers quickly and efficiently providing the very best customer service. A UniPage PTX call point system will set your venue apart from the rest.

NO PC REQUIRED Extra Features
