PTX - Call Button

Communicating Quick and Easy

The UniPage PTX call buttons are battery powered service buttons. The PTX button can be easily mounted and provide communications to specially designed pagers.

Commonly used in gaming rooms and reception areas, the PTX solution offers efficient communication. Customise the messages sent to pagers to suit your business and make sure you never miss a call again.

The PTX solution was designed to improve staff efficiency and increase revenue.

Key features:

- Call repeats
- Call escalations to manager pager
- Cancel button on machine
- LED indicator
- NO PC required
- Cost effective
- Easy to install
- Not set up or monthly servicing costs

PTX Applications:

- Service calls
- Gaming room paging
- Reception Paging
- Staff Paging
- Security Paging
- Emergency paging
- Checkout point paging
