

UniPage PTX-001 Nurse Call

The UniPage PTX-001 Nurse Call button is a **battery backed** call button that allows patients to quickly alert medical staff when assistance is required. As we combat the threat that the COVID-19 pandemic brings to our healthcare system it is vital that patients receive the right medical attention at the right time. Equally as important is the need for medical staff to efficiently manage their time to care for their patients. The use of the PTX-001 Nurse Call buttons bridges this gap.

This system comes preprogrammed and ready to use and is ideal for make shift pop up hospitals and ICU units.

Advantage

The UniPage PTX-001 Nurse Call button is unlike other Nurse Call systems because it is battery backed. This means there is no installation required and is self contained.

Benefits

- ✓ Battery backed call buttons
- ✓ PTX-001 button sends direct message to staff pager
