UniPage

MTX QuickCall

## Communicating Can Be Quick & Simple

The UniPage MTX-1 is a battery powered remote radio button transmitter. Easily mounted the MTX-1 provides direct communications to alphanumeric/numeric or tone pagers - works with existing UniPage pagers and is expandable.

Ideal for WaiterCall and small GuestCall systems or simply to alert a pager to "attendance required" at a reception, cashier or loading dock.

Connect directly to a sensor (security or industrial) to be alerted when an voltage free open contact is activated.

The MTX-1 single transmitter can be discreetly mounted providing a one touch location based message for assistance. The MTX-1 can also be linked to an auto dialler or alarm system if required.
