

UniPage Waiter/Staff Paging Solution

The UniPage staff paging solution combines some of our most popular products to deliver an efficient and reliable paging solution. The **UniPage PTX-003** transmitter provides powerful range to speak to the **UniPage LX4+ staff pager**. Customise your solution with preset alphanumeric messages to suit your application

Powerful Transmitter

Get the range you need with this transmitter

Standard AAA Batteries

Minimise maintenance cost with user replaceable batteries

Alphanumeric messaging

Customised alphanumeric messages gives you the flexibility to communicate with staff efficiently

Flexible Application

This solution can be used to contact floor staff, waiters, manager etc.

Tone/Vibe alert

Choose to alert your staff with both tone and vibrate or vibrate only

The **UniPage LX4+ Pager** is easy to use. The pager is backlit which makes it perfect for reading messages in low light settings. A belt holster and battery are supplied with every new pager.

Benefits to using a Staff Paging Solution:

- Cost effective
- Cuts through noise in noisy settings
- Discreet alerts in quieter settings
- Provides coverage where wifi and cellular lack
- Controlled by you
